D—A properly drawn legal instrument shall be executed by the parties concerned for such dual use of the garage or parking area, which instrument, duly approved by the City Solicitor shall be filed with the application for occupancy permit.

4—Erection, alteration, enlargement or use of a structure or portion thereof, with modified or without loading space as required in Section 2607 of this ordinance, in any district other than "S-A", "RP", "CP", or "AP", provided that the Administrator shall ascertain with the assistance and approval of the Department of Public Safety, that the volume of vehicular service will not require compliance with the space provisions of said section and that said volume will not cause undue interference with the use of streets or ways, nor imperil general safety.

A—The loading area shall be located within the same block and not more than five hundred (500) feet from the uses to be served;

d. Compounding and mixing of recognized formulations of blasting agents shall be conducted so that no liquid fuel with a flash point lower than that

of No. 2 Diesel fuel oil (125 degrees F minimum) is used and shall be performed to provide reasonable safety to persons and property. Evidence that compounding and mixing of recognized formulations of blasting agents have been conducted in accordance with the applicable standard specified for this section 12.11d in article 31 of this Code shall be evidence that such compounding and mixing are reasonably safe to persons and property.

Note 1: All types of blasting caps in strengths through No. 8 shall be rated at 1-1/2 pounds of explosives per 1000 caps.

Note 2: "Barricaded" means that a building containing explosives is effectually screened from a magazine, building, railway, or highway, either by a natural barricade, or by an artificial barricade of such height that a straight line from the top of any sidewall of the building containing explosives to the eave line of any magazine, or building, or to a point twelve feet above the center of a railway or highway, will pass through such intervening natural or artificial barricade.

Note 3: "Artificial Barricade" means as artificial mound or revetted wall of earth of a minimum thickness of three feet.

Note 4: "Natural Barricade" means natural features of the ground, such as hills, or timber of sufficient density that the surrounding exposures which require protection cannot be seen from the magazine when the trees are bare of leaves.

Note 5: When a building containing explosives is not barricaded, the distances shown in the Table shall be doubled.

Note 6: When two or more storage magazines are located on the same property, each magazine shall comply with minimum distances specified from inhabited buildings, railways, and highways, and in addition they shall be separated from each other by not less than the distances shown for "Separation of Magazines," except that the quantity of explosives contained in cap magazines shall govern in regard to the spacing of said cap magazines from magazines containing other explosives. If any two or more magazines are separated from each other by less than the specified "Separation of Magazines" distances, then such two or more magazines, as a group, shall be considered as one magazine, and the total quantity of explosives stored in such group must be treated as if stored in a single magazine located on the site of any magazine of the group, and shall comply with the distances specified from other magazines, inhabited buildings, railways, and highways.

Note 7: This table applies only to the manufacture and permanent storage of commercial explosives. It is not applicable to transportation of explosives, or any handling of temporary storage necessary or incident thereto. It is not intended to apply to bombs, projectiles, or other heavily encased explosives.

Crankcase drainings and flammable or combustible liquids shall not be dumped into sewers, but shall be stored in tanks or tight drums outside of any building until removed from the premises.

Section 16.58. Fire Control.

Suitable fire-control devices, such as small hose or portable fire extinguishers, shall be available to locations where fires are likely to occur. Additional fire-control equipment may be required where a tank of more than 50,000 gallons individual capacity contains Class I liquids and where an unusual exposure hazard exists from surrounding property. Such additional fire-control equipment shall be sufficient to extinguish a fire in the largest tank. The design and amount of such equipment shall provide reasonable safety to persons and property. DIVISION VI

SERVICE STATIONS

Section 16.61. Location.

Apparatus dispensing Class I liquids into the fuel tanks of motor vehicles

of the public shall not be located at a bulk plant unless separated by a fence or similar barrier from the area in which bulk operations are conducted.

Section 16.62. Construction.

Class I liquids shall not be stored or handled within a building having a basement or pit into which flammable vapors may travel, unless such area is provided with ventilation designed to prevent the accumulation of flammable vapors therein.

Section 16.63. Storage and Handling.

a. General Provisions.

(1) Class I liquids shall be stored in approved closed containers not exceeding 60 gallons capacity, in tanks located underground or in tanks in special enclosures as described in Section 16.63b.

(2) Class II and III liquids shall be stored in containers, in tanks, located underground or in tanks in special enclosures as described in section 16.63b or as provided in section 16.65b.

(3) Aboveground tanks, located in an adjoining bulk plant, may be connected by piping to service station underground tanks if, in addition to valves at above-ground tanks, a valve is also installed within control of service station personnel.

(4) The provisions of section 16.63a (1) and 16.63 (2) shall not prohibit the temporary use of portable or semi-portable tanks in conjunction with the dispensing of flammable or combustible liquids into the fuel tanks of motor vehicles or other motorized equipment on premises not normally accessible to the public. Such installations shall only be made with the approval of the Division of Fire Prevention.

b. Special Enclosures.

(1) When installation of tanks in accordance with section 16.23 is impractical because of property or building limitations, tanks for flammable or combustible liquids may be installed in building if enclosed and upon specified approval of the Chief of the Division of Fire Prevention.

(2) The enclosure shall be substantially liquid and vapor tight without

backfill. Sides, top, and bottom of the enclosure shall be of reinforced concrete at least 6 inches thick, with openings for inspection through the top only. Tank connections shall be so piped or closed that neither vapors nor liquid can escape into the enclosed space. Means shall be provided whereby portable equipment may be employed to discharge to the outside any vapors which might accumulate should leakage occur.

(3) At automotive service stations provided in connection with tenant or customer parking facilities at or below grade level beneath large buildings of commercial, mercantile, or residential occupancy, tanks containing Class I liquids installed of necessity in accordance with Section 16.63b (2), shall not exceed 5,000 gallons individual or 10,000 gallons aggregate capacity.

c. Inside Buildings.

(1) Except where stored in tanks as provided in Section 16.63b, no Class I liquids shall be stored or handled within any service station building except in approved closed containers. A container equipped with an approved pump or an approved self-closing faucet shall be considered a closed container for purposes of storage only.

(2) No Class I liquids shall be dispensed, or transferred from one container to another, inside of a service station building, except flammable anti-freeze liquids. Such anti-freeze may be dispensed in rooms of a service station building provided such rooms have approved heating devices and there is no open flame in such room lower than 8 feet above floor level. Service station area other than lubricatoriums or rooms in which flammable liquids are transferred or dispensed may be heated in any conventional manner.

(3) Class II or III liquids may be stored and dispensed inside service station buildings from tanks of not more than 120 gallons capacity each.

d. Labeling.

No sale or purchase of any Class I, II, or III liquids shall be made in containers unless such containers are clearly marked with the name of the product contained therein.

e. Dispensing Containers.

No delivery of any Class I liquids shall be made into portable containers unless the container has a tight closure with screwed or spring cover and is fitted with a spout or so designed that the contents can be poured without spilling.

Section 16.64. Dispensing Systems.

a. Location.

Dispensing devices at automotive service stations shall be so located that all parts of the vehicle being served will be on the premises of the service station.

(1) Inside Location.

Approved dispensing units may be located inside garage upon specific approval of the Chief of the Division of Fire Prevention. The dispensing area shall be separated from motor vehicle repair areas in a manner approved by the Chief of the Division of Fire Prevention. The dispensing unit and its piping shall be protected against physical damage from vehicles either by mounting on a concrete island or by equivalent means, and shall be located in a position where it cannot be struck by a vehicle descending a ramp or other slope out of control. The dispensing area shall be provided with an approved mechanical or gravity ventilation system. A clearly identified switch, readily accessible in case of fire or physical damage to any dispensing unit, shall be provided to shut off the power to dispensing units. When dispensing units are located below grade, only approved mechanical ventilation shall be used and the entire dispensing area shall be protected by an approved automatic sprinkler system. The ventilating system shall be electrically interlocked with the gasoline dispensing units so that the dispensing units cannot be operated unless the ventilating fan motors are energized.

b. Dispensing Units.

(1) Class I liquids shall be transferred from underground tanks by means of fixed pumps so designed and equipped as to allow control of the flow and to prevent leakage or accidental discharge. Class I liquids shall not be transferred from any storage tank by

any equipment or procedure which subjects the shell of the storage tank to pressures above its allowable working pressure. Air or gas pressure shall not be used for this purpose.

(2) Supplemental means shall be provided outside of the dispensing device whereby the source of power may be readily disconnected in the event of fire or other accidents.

(3) Dispensing devices for Class I liquids shall be of approved type.

(4) Class I liquids shall not be dispensed by pressure from drums, barrels, and similar containers. Approved pumps taking suction through the top of the container or approved self-closing faucets shall be used.

c. Remote Pumping Systems.

(1) Scope: Remote pumping systems shall apply to systems for dispensing Class I liquid where such liquid is transferred from underground storage to individual or multiple dispensing units by pumps located elsewhere than at the dispensing units.

(2): Pumps: Pumps shall be designed or equipped so that no part of the system will be subjected to pressures above its allowable working pressure. Pumps installed above ground, outside of buildings, shall be located not less than 10 feet from lines of adjoining property which may be built upon; and not less than 5 feet from any building opening. When an outside pump location is impractical, pumps may be installed inside of buildings as provided for dispensers in Section 16.64a (1), or in pits as provided in Section 16.64c (3). Pump shall be substantially anchored and protected against physical damage by vehicles.

(3) Pits: Pits for subsurface pumps or piping manifolds of submersible pumps shall withstand the external forces to which they may be subjected without damage to the pump, tank, or piping. The pit shall be no longer than necessary for inspection and maintenance shall be provided with a tight fitting cover.

(4) Controls.

(a) A control shall be provided that

will permit the pump to operate only when a dispensing nozzle is removed from its bracket on the dispensing unit and the switch on this dispensing unit is manually actuated. This control shall also stop the pump when all nozzles have been returned to their brackets.

(b) There shall be a means, visible from the operating area, to indicate when the pump motor is running.

(c) A clearly identified switch, readily accessible in case of fire or physical damage at any dispensing unit, shall be provided to shut off the power to the pump motors.

(5) Testing: After the completion of the installation including any paving, that section of the pressure piping system between the pump discharge and the connection for the dispensing facility, shall be tested for at least thirty minutes at a pressure fifty per cent above the maximum operating pressure. Such tests shall be repeated at five-year intervals thereafter.

d. Automatic Dispensing Units.

The installation and use of unattended coin-operated dispensing devices for Class I liquids is prohibited.

e. Delivery Nozzles.

(1) Manual Nozzles: The dispensing of Class I liquid into the fuel tank of a vehicle or into a container shall be under the control of a competent attendant at all times. The use of any device which permits the dispensing of Class I liquids when the hand of the operator of the discharge nozzle is removed from the nozzle control lever, is hereby forbidden except when using an automatic nozzle at an automotive service station as provided in Section 16.64e (2).

(2) Automatic Nozzles with Latch-Open Devices: In lieu of being held open by hand, an approved automatic nozzle may be used for dispensing Class I liquid into the fuel tank of a vehicle. Such a nozzle shall have the latch-open device as an integral part of the assembly and shall shut off the liquid reliably and positively when the gasoline tank is filled, when it falls from the filling neck of an automobile tank, when it is subject to rough usage such as dropping or lack of proper lubrication, or when an

automobile is driven away while the nozzle is still in the tank. A competent attendant shall be in the immediate vicinity of the vehicle being filled by such an approved nozzle.

Section 16.65. Marine Service Stations.

a. Tanks and pumps, other than those integral with approved dispensing devices, supplying Class I liquids at marine service stations shall be located only on shore, or upon express permission of the Chief of the Division of Fire Prevention, on a pier of solid-fill type. Approved dispensing devices with or without integral pumps may be located on shore, piers of solid-fill type, open piers, wharves or floating docks.

b. Tanks and pumps supply Class II and III liquids at marine service stations may be located on shore, on a pier of solid-fill type, or on open piers, wharves or floating docks. Class II or III liquids tanks which are located other than on shore or on piers of the solid-fill type shall be limited to 550 gallons aggregate capacity. Pumps not a part of the dispensing unit shall be located adjacent to the tanks.

c. Pipe lines attached to piers, wharves or floating docks shall be protected against physical damage. A readily accessible valve to shut off the supply from the shore shall be provided in each pipe line at or near the approach to the pier, wharf, or floating dock.

d. Pipe lines to floating docks shall be so designed and installed as to make appropriate provisions for changes in water level or tide. Transition from the fixed portion of the installation to the floating unit shall provide desirable product control, flexibility, and protection from physical damage.

Section 16.66. Electrical Equipment.

a. This section shall apply to areas where Class I liquids are stored or handled.

b. All installations of electrical wiring and equipment shall be reasonably safe to persons and property. For Class I liquids where electrical wiring and equipment are installed, evidence that such wiring and equipment are of the type approved for use in the hazardous locations as set forth in Table 16.66b and that such wiring and equipment have been installed in accordance with the applicable standard specified for this Section 16.66b in Article 31 of this Code shall be evidence that such wiring and equipment are reasonably safe to persons and property.

c. In Table 16.66b, a classified area shall not extend beyond the unpierced wall, roof, or other solid partition.

d. For area classifications not covered in Section 16.66b and not listed in Table 16.66b, the Chief of the Fire Prevention Division shall have the authority to classify the extent of the hazardous area.

b. The Director of the Department of Public Safety, or Chief of Fire Prevention Division shall be empowered to order an immediate test of any such tanks at the cost of the owner or person in charge thereof where underground liquid losses exceed three-fourths of one per cent of the average monthly receipts,

and where seepage or fumes in the vicinity indicate possible leakage in said tanks. Tests shall be made in accordance with the rules and procedure set out in National Fire Protection Association Code No. 329M, Chapter 3, or such other tests as may be approved by the Director of Public Safety, or the Chief of Fire Prevention Division. Record of said tests shall be kept for a period of one (1) year.

c. If any person, firm, or corporation owning or having charge of said tanks fails to comply with the order of the Director to make said tests within the time designated, the Director shall make the said test and furnish a bill for the cost thereof to the City Controller, who shall proceed to collect the same from the said owner or person in charge of said tanks. If not paid within ten (10) days after notice is mailed to the last known address of said owner or person in charge, the City Controller shall place the same in the hands of the City Solicitor for collection and appropriate legal proceedings.

d. Whenever underground flammable liquid tanks have been found to be leaking, the owner or person in charge shall remove or abandon them in accordance with the procedure contained in the latest revision of National Fire Protection Association Code #30.F.

a. The frame or case of the welding machine except internal combustion engine driven machines shall be grounded. Ground connections shall be mechanically strong and electrically adequate for the required current.

b. Welding current return circuits from the work to the machine shall have proper electrical contact at all joints and periodic inspection shall be made to ascertain that proper electrical contact is maintained.

c. When electric arc-welding or cutting is to be discontinued for any substantial period of time, such as during lunch hour or overnight, all electrodes shall be removed from the holders, the holders shall be carefully located so accidental contact cannot occur, and the machines shall be disconnected from the power source.

Section 30.22. Permit Required for Welding or Cutting.

a. A permit shall be required of each company, corporation, copartnership or owner-operator performing welding or cutting operations except as provided in Section 30.22b. This permit shall not be required for each welding or cutting job location. The company, corporation, copartnership or owner-operator shall notify the Division of Fire Prevention in advance where such work is taking place, except where such work is done in response to an emergency call that does not allow time for the Division of Fire Prevention to be notified in advance of the work.

b. A permit shall not be required of any company, corporation, copartnership or owner-operator:

- (1) Where the welding or cutting is performed in areas approved for the purpose, or
- (2) Having an approved system established for control of the fire hazards involved.

c. Application for a permit required by this article shall be made by the company, corporation, copartnership or owner-operator performing the welding or cutting operation or by his duly authorized agent.

d. A permit for welding or cutting operations shall not be issued unless the individuals in charge of performing such operations are capable of doing such work in a safe manner. Demonstration of a working knowledge of the provisions of this article shall constitute acceptable evidence of compliance with this requirement.

e. Companies, corporations, copartnerships and owner-operators required to have a permit shall maintain a record of all locations where welding or cutting operations are performed and have it available for inspection by the Division Fire Prevention.

PROTECTION OF TANKS CONTAINING FLAMMABLE OR COMBUSTIBLE LIQUIDS IN LOCATIONS THAT MAY BE FLOODED

Section 32.1. Scope.

The provisions herein are for the pro-
tection of tanks containing flammable or
combustible liquids that may become
buoyant due to a rise in the level of
the water table or due to their location
in an area that may be subjected to
flooding.

Section 32.2. Aboveground Tanks.

(1) No aboveground vertical storage
tank containing a flammable or com-
bustible liquid shall be located so that
the allowable liquid level within the
tank is below the established maximum
flood stage, unless the tank is provided
with a guiding structure such as de-
scribed in Section 6.

(2) Independent water supply facili-
ties shall be provided at locations where
there is no ample and dependable public
water supply available for loading empty
tanks with water.

(3) In addition to the proceeding
requirements, each tank so located that

more than 70 per cent, but less than 100 per cent, of its allowable liquid storage capacity will be submerged at the established maximum flood stage, shall be safeguarded by one of the following methods:

(a) Tank shall be raised, or its height shall be increased, until its top extends above the maximum flood stage a distance equivalent to 30 per cent or more of its allowable liquid storage capacity, provided, however, that the submerged part of the tank shall not exceed 2-1/2 times the diameter; or

(b) As an alternate to the foregoing, adequate noncombustible structural guides, designed to permit the tank to float vertically without loss of product, shall be provided.

b. Horizontal Tanks:

(1) Independent water supply facilities shall be provided at locations where there is no ample and dependable public water supply available for loading partially empty tanks with water.

(2) Each horizontal tank so located that more than 70 per cent or its storage capacity will be submerged at the established flood stage, shall be anchored, attached to a foundation of concrete or of steel and concrete of sufficient weight to provide adequate load for the tank when filled with flammable or combustible liquid and submerged by flood waters to the established flood stage, or adequately secured by other means.

c. Other types of tanks: Spherical and spheroidal tanks shall be protected by applicable methods as specified for either vertical or horizontal tanks.

Section 32.3. Underground Tanks.

a. At locations where there is no ample and dependable water supply or where filling of underground tanks with liquids is impracticable because of the character of their contents, their use, or for other reasons, each tank shall be safeguarded against movement when empty and submerged by high ground water or flood waters by anchoring, weighting with concrete or other approved solid loading material, or securing by other means. Each such tank

shall be so constructed and installed that it will safely resist external pressure due to high ground water or flood waters.

b. At locations where there is an ample and dependable water supply available, underground tanks containing flammable or combustible liquids, so installed that more than 70 per cent of their storage capacity will be submerged at the maximum flood stage, shall be so anchored, weighted, or secured by other means, as to prevent movement of such tanks when filled with flammable or combustible liquids, and submerged by flood waters to the established flood stage.

Section 32.4. Pipe Connections.

Pipe connections below the allowable liquid level in a tank shall be provided with valves or cocks located as closely as practicable to the tank shell. Such valves and their connections to tanks shall be of steel or other material suitable for use with the liquid being stored. Cast iron shall not be permitted.

Section 32.5. Independent Water Supply Facilities.

a. At locations where an independent water supply is required, it shall be entirely independent of public power and water supply. Independent sources of water shall be available when flood waters reach a level not less than 10 feet below the bottom of the lowest tank on a property.

b. The self-contained power and pumping unit shall be so located or so designed that pumping into tanks may be carried on continuously throughout the rise in flood waters from a level 10 feet below the lowest tank to the level of the potential flood stage.

c. Capacity of the pumping unit shall be such that the rate of rise of water in all tanks shall be equivalent to the established potential average rate of rise of flood waters at any stage.

d. Each independent pumping unit shall be tested periodically to insure that it is in satisfactory operating condition.

Section 32.6. Structural Guides.

a. Structural guides for holding

floating tanks above their foundations shall be so designed that there will be no resistance to the free rise of a tank, and shall be constructed of noncombustible material.

b. The strength of the structure shall be adequate to resist lateral movement of a tank subject to a horizontal force in any direction equivalent to not less than 25 pounds per square foot acting on the projected vertical cross-sectional area of the tank.

c. Where tanks are situated on exposed points or bends in a shore line where swift currents in flood waters will be present, the structures shall be designed to withstand a unit force of not less than 50 pounds per square foot.

Section 32.7. Safe Practices.

a. Water Loadings:

(1) The filling of a tank to be protected by water loading shall be started as soon as flood waters reach a dangerous flood stage. The rate of filling shall be at least equal to the rate of rise of flood waters (or the established average potential rate of rise).

(2) Sufficient fuel to operate the water pumps shall be available at all times to insure adequate power to fill all tankage with water.

(3) All valves on connecting pipe lines shall be closed and locked in closed position when water loading has been completed.

b. Floating Tanks:

(1) Where structural guides are provided for the protection of floating tanks, all rigid connections between tanks and pipe lines shall be discontinued and blanked off or blinded before the flood waters reach the bottom of the tank, unless control valves and their connections to the tank are of a type designed to prevent breakage between the valve and the tank shell.

(2) All valves attached to tanks other than those used in connection with water loading operations shall be closed and locked.

(3) If a tank is equipped with a swing line, the swing pipe shall be raised to and secured at its highest position.

Section 32.8. Inspections.

a. The Fire Prevention Division shall make periodic inspections of all plants where the storage of flammable or combustible liquids is such as to require compliance with the foregoing provisions, in order to assure the following:

(1) That all flammable or combustible liquid storage tanks are in compliance with these requirements and so maintained.

(2) That detailed printed instructions of what to do in flood emergencies are properly posted.

(3) That station operators and other employees depended upon to carry out such instruction are thoroughly informed as to the location and operation of such valves and other equipment necessary to effect the intent of these provisions.

ABANDONMENT OR REMOVAL OF UNDERGROUND TANKS

Section 33.1. Methods.

a. Underground tanks taken out of service shall be safeguarded or disposed of by any one of the three following means:

(1) Placed in a "temporarily out of service" condition. Tanks shall be rendered "temporarily out of service" only when it is planned that they will be returned to active service at the location or pending removal within 90 days.

(2) Abandoned in place, with proper safeguarding.

(3) Removed.

Section 33.2. Records.

a. In cases where tanks are either rendered "temporarily out of service" or permanently abandoned, records shall be kept of tank size, location, date of abandonment, and method used for placing the abandoned tank in a safe condition. With any of the methods described in

Section 1, no cutting torch or other flame or spark producing equipment shall be used until the tank has been completely purged or otherwise rendered safe. In each case, the steps given shall be carried out successively.

Section 33.3. Tanks Rendered Temporarily Out of Service.

a. With tanks rendered "temporarily out of service,"

- (1) The fill line, gage opening, and pump suction shall be capped and secured against tampering.
- (2) The vent line shall be left open.

Section 33.4. Tanks Abandoned in Place.

a. With underground tanks abandoned in place,

- (1) All flammable or combustible liquid shall be removed from the tank and from all connecting lines.
- (2) The suction, inlet, gage, and vent lines shall be disconnected.
- (3) The tank and any remaining stubs shall be filled completely with a nonshrinking inert solid material.
- (4) All tank inlets and outlets shall be capped.

Section 33.5. Tanks Removed.

a. When underground tanks are removed,

- (1) All flammable or combustible liquids in the tank and connecting lines shall be removed.
- (2) The suction, inlet, gage and vent lines shall be disconnected. Sections of connecting lines which are not to be used shall be removed. Inlets, outlets, and leaks, if any, shall be capped or plugged.
- (3) After removal, the tank shall be gas freed; on the premises if it can be done safely at that location, or transported to an area not accessible to the public and the tank gas freed at that location.

Section 33.6. Tanks That Are Junked.

a. If a tank is to be disposed of as

junk, it shall be retested for flammable vapors, and, if necessary, rendered gas free. After junking and before releasing to junk dealer, a sufficient number of holes or openings shall be made in it to render it unfit for further use.

Section 33.7. Tanks That Are Reused.

a. Used tanks which are to be reused for flammable or combustible liquid service shall meet all the provisions of Article 16 for the installation of underground tanks.

ARTICLE 34

FIRE DRILLS IN EDUCATIONAL AND INSTITUTIONAL OCCUPANCIES

Section 34.1. Fire Drills.

a. Fire drills shall be held at least once a month in educational occupancies where such occupancies constitute the major occupancy of a building and at least once every two months in institutional occupancies where such occupancies constitute the major occupancy of a building. During severe weather, fire drills may be postponed. A record of all fire drills shall be kept and persons in charge of such occupancies shall file written reports at least quarterly with the Fire Prevention Division giving the time and date of each drill held.

b. In educational occupancies fire drills shall include complete evacuation of all persons from the building. In institutional occupancies fire drills shall be conducted to familiarize operating personnel with their assigned positions of emergency duty; complete evacuation of occupants from the building at the time of the fire drill shall be required only where it is practicable and does not involve moving or disturbing persons under medical care.

Section 35. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance.

Passed May 9, 1966.

Approved May 11, 1966.

No. 231

AN ORDINANCE—Authorizing and Directing the Mayor and the Director of the Department of Public Works, to enter into an agreement on behalf of the City of Pittsburgh with the Borough of Munhall to discharge sanitary sewage into the Borough's "West Run Sanitary Sewer Trunk Line" which in turn is connected to and drains into the Borough of West Homestead's "Forrest Avenue Sanitary Sewer Trunk Line," and providing for the payment of the City's share of cost thereof.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed on behalf of the City of Pittsburgh, to enter into an agreement with the Borough of Munhall to discharge sanitary sewage into the Borough's "West Run Sanitary Sewer Trunk Line" which in turn is connected to and drains into the Borough of West Homestead's "Forrest Avenue Sanitary Sewer Trunk Line," in substantially the following form.

AGREEMENT

This Agreement made the _____ day of _____, 1965, by and between the City of Pittsburgh (hereinafter sometimes called the "City") a municipal corporation of the Commonwealth of Pennsylvania, situate in the County of Allegheny,

and

The Borough of Munhall (hereinafter sometimes called "Borough") a municipal corporation of the Commonwealth of Pennsylvania, situate in the County of Allegheny.

WITNESSETH:

Whereas, The Borough of Munhall lies adjacent to the City of Pittsburgh, and

Whereas, The Borough has constructed a sanitary sewerage system known as the "West Run Sanitary Sewer Trunk Line," which drains and takes care of the sanitary sewerage along West Run and the surrounding territory as indi-

cated on Map Exhibit "A" attached to and made a part of this agreement, and

Whereas, The Borough of Munhall's "West Run Sanitary Sewer Trunk Line" is connected to and drains into the Borough of West Homestead "Forrest Avenue Sanitary Sewer Trunk Line," and

Whereas, The portion of the 31st Ward of the City lying within the West Run Drainage Basin has no other sewerage system in which to drain and dispose of its sanitary sewerage, and

Whereas, The "West Run Sanitary Sewer Trunk Line" as now constructed and connected to the "Forrest Avenue Sanitary Sewer Trunk Line" is of sufficient capacity to take care of the City's Sanitary Sewerage from the territory aforesaid,

Now, Therefore, In order to permit the City of Pittsburgh to connect with the said "West Run Sanitary Sewer Trunk Line" and make use of the same for the disposal of its sanitary sewerage, the City agrees as follows:

1. To pay to the Borough of Munhall Seventy-Five Cents (\$.75) per front foot of any and every lot in the aforesaid territory in the City upon which a single family dwelling has been erected during the year 1964 and each year following thereafter as a tap-in fee for the privilege of draining sanitary sewerage to the City's Sewer System connected to and draining into the Borough's "West Run Sanitary Sewer Trunk Line." This tap-in fee shall be paid by the City to the Borough at the end of each calendar year.

2. The City shall pay to the Borough Thirty-Two (32) per cent, this percentage having been determined by the ratio between the total acreage in that portion of each municipality laying naturally in the West Run Drainage Basin, for the cost that may be due for construction and repairs of the Borough's "West Run Sanitary Sewer Trunk Line" caused by storms, breaks, cloggings, etc. The parties hereto agree in the event that repairs are due to aforesaid Borough Sewer trunk line, that no repairs will be made without the knowledge and consent of the City and in no event will repairs be made without solicitation of

bids and the letting of a firm contract to the lowest responsible bidder. The parties hereto further agree that in the event repairs are required to the connecting joints at the points of intersection of the City's sewer or sewers, with the Borough's sewer, or, to the sewer lines located in the City of Pittsburgh, that said repairs will be made by the City and at its sole cost and expense.

3. The Borough of Munhall having entered into an agreement with the Borough of West Homestead, November 8, 1962, whereby the "Borough of Munhall agrees to bear one-half (1/2) the expense for all repairs" required to the Forrest Avenue Sanitary Sewer Trunk Line, said repairs to be performed under conditions similar to those set forth in paragraph 2 above, the City agrees to reimburse the Borough of Munhall the City's proportionate share of the cost of those repairs, such being determined as stated in paragraph 2.

4. Connections from the City sanitary sewer system to the Munhall Borough sanitary sewer system shall be made by the City at the entire cost and expense of the City.

5. That no storm water or water from roofs, and no insoluble solids of any kind, and no inflammable or or volatile liquids, garbage (except shredded garbage as permitted by the Allegheny County Sanitary Authority), oil, ice, snow or slush shall at any time be thrown, dumped or permitted to enter the sanitary sewer of the Borough of Munhall through the sewer or sewers, either constructed or to be constructed by the City and from the aforesaid areas, and no connection shall be made and apparatus constructed which shall be intended for or shall render possible such entry. The violation of this provision may cause the Borough to disconnect the said sewers until a repetition of the offense is provided against.

6. The use of the "West Run Sanitary Sewer Trunk Line" and the connections therewith shall be in strict conformity with the laws of the Commonwealth and the requirements of the Commissioner of Health of the Commonwealth.

7. In making the connections to the Borough's sanitary sewer trunk line, the

City agrees that all trenches shall be entirely protected and safeguarded by barriers and lights, and, refilled and tamped to the same condition as before opening, and so maintained, and the City shall be liable for injury to the Borough's Trunk Line, or to any person or to any property, by reason of, or resulting from the connections aforesaid. All manholes and sewer installations shall be constructed and built by the City in the aforesaid area in accordance with the City's standards and specifications, and approved by the Engineer of the Borough.

8. The Borough Engineer shall approve the sizes and kind of pipes to be used in the connections and the manner of laying pipes and connecting the joints at the point of intersection with the Borough's Sanitary Sewer Trunk Line. The same formalities are required in case of repairs, alterations and additions as are required in making the original connections; and no such connections shall be constructed or made until plans and specifications have been submitted to the Sanitary Water Board and approved in accordance with the provisions of the Act of Assembly providing for such approval.

9. In case the Borough of Munhall shall hereafter either voluntarily or otherwise install a sewage disposal plant and sewage treatment works for the disposal of its sewage, including the sewage from the area of the City of Pittsburgh included in this agreement, the City of Pittsburgh agrees to pay for its proportionate share of the construction and maintenance of said sewage treatment works and sewage disposal plant. The formula for determining the proportionate share of the cost shall be as set forth in paragraph 2 above.

10. This Agreement supersedes the prior agreement between the parties dated November 19, 1940.

11. This Agreement is authorized on the part of the Borough of Munhall by Ordinance No. 1157, approved August 12, 1965, and on the part of the City of Pittsburgh by Ordinance No. ----- approved -----, 1965.

In Witness Whereof, The parties hereto have caused this agreement to be exe-

seals affixed, this _____ day of

Section 1. The Mayor and the Director of the Department of Public Works, on behalf of the City of Pittsburgh are hereby authorized and directed to enter into an agreement with the Allegheny County Sanitary Authority and the Borough of Monroeville, amending the Sewage Service Agreement among the parties dated August 1, 1955 as amended by Agreement dated April 1, 1960, by providing for the payment by the Borough of Monroeville to the Allegheny County Sanitary Authority of the sum of \$73,251.92, plus accrued interest, in lieu of annual bond payments by said Borough and releasing said Borough from obligations under Paragraph 2 of said Sewage Service Agreement pertaining to payments with respect to the cost of enlarged and added facilities constructed in order to accommodate said Borough, in 'substantially the following form:

• AGREEMENT

THIS AGREEMENT, dated for convenience of reference as of the first day of June, 1966, by and among

CITY OF PITTSBURGH

(herein called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

ALLEGHENY COUNTY SANITARY
AUTHORITY

(herein called the "Sanitary Authority"), a body corporate and politic of the Commonwealth of Pennsylvania under the provisions of the Municipality Authorities Act of 1945, as amended, and

BOROUGH OF MONROEVILLE

(herein called "Monroeville" or the "Borough"), a municipal corporation of the Commonwealth of Pennsylvania also located within the County of Allegheny,

WITNESSETH:

WHEREAS, The parties have entered into a long-term agreement dated August 1, 1955 for sewage service by the Sanitary Authority to the Borough, such agreement, herein called the "Sewage Service Agreement", having been authorized by City Ordinance No. 372 approved September 29, 1955, Sanitary Authority Resolution adopted August 16, 1955, and Borough Ordinance No. 46 approved August 1, 1955; and

WHEREAS, The said Sewage Service Agreement was amended by agreement dated April 1, 1960 by and among the City, the Sanitary Authority, the Borough, the Township of Penn and the Penn Township Sewage Authority, Westmoreland County, Pennsylvania, which amending agreement, herein called the "Level Green Agreement", was authorized by City Ordinance No. 172 approved May 25, 1960, Sanitary Authority Resolution adopted May 12, 1960, and Borough Ordinance No. 195 approved May 9, 1960; and

WHEREAS, Under the terms of the Sewage Service Agreement the Borough undertook to pay the Sanitary Authority the added cost of enlarging the Turtle Creek Intercepting sewer and of providing up to 12 additional diversion structures in order to accommodate Monroeville, which debt was at the request of the Borough made payable in annual sums equal to the annual debt burden on \$435,000 of the Sanitary Authority's revenue bonds, all as more fully and accurately set forth in the said Sewage Service Agreement; and

WHEREAS, The said sum of \$435,000 was an estimate, made prior to advertising for construction bids, of the difference between the estimated cost of the intercepting sewer and other facilities as

originally designed and the estimated cost of the enlarged sewer plus 12 additional diversion structures; and

WHEREAS, The parties agree that a corrected estimate of such difference in cost, based upon the unit prices actually bid by Contractors to whom the construction contracts were awarded and in view of the fact that apparently fewer than 12 diversion structures will be required, is \$307,500; and

WHEREAS, Monroeville has paid a total of \$312,112.50 on account of said debt, including principal and interest, in quarterly payments of \$7,612.50; and

WHEREAS, Monroeville desires to terminate its obligation under the Sewage Service Agreement to make annual payments to the Sanitary Authority with respect to the cost of the enlarged and added facilities constructed in order to accommodate Monroeville; and

Whereas, The Authority, with the consent of the City, is willing to terminate such obligation for the consideration and upon the terms and conditions hereinafter set forth.

Now, Therefore, The parties hereto, intending to be legally bound, covenant and agree, for themselves and their respective successors and assigns, as follows:

1. Instead of continuing to make annual bond payments as required by the terms of the Sewage Service Agreement, Monroeville shall promptly pay to the Sanitary Authority the sum of \$73,251.92 plus accrued interest from April 1, 1966, at the rate of 3.318% per annum (the Sanitary Authority's net bond interest rate); provided, however, that Monroeville shall have the privilege of paying said sum in two installments, the first in the amount of not less than \$25,000 plus accrued interest on or before July 1, 1966, and the second in the amount of the remaining balance plus accrued interest thereon not later than July 1, 1967. The parties understand and agree that if such partial payment of \$25,000 or more plus accrued interest is not made by July 1, 1966, the entire debt plus accrued interest thereon shall be deemed delinquent and in default and shall be immediately due and payable and shall thereafter bear interest at the

rate of 6% per annum; and if such partial payment has been made on or before July 1, 1966, but the remaining balance of \$48,251.92 (or less) plus interest thereon at the rate of 3.318% per annum is not paid by July 1, 1967, such unpaid balance plus accrued interest thereon shall be deemed delinquent and in default and shall be immediately due and payable and shall thereafter bear interest at the rate of 6% per annum.

2. For and in consideration of the payments to be made by Monroeville pursuant to Paragraph 1 of this Agreement, the Sanitary Authority and the City hereby release and discharge Monroeville from any and all obligations, liabilities and claims under or arising out of those provisions of Paragraph 2 of the Sewage Service Agreement which pertain to the obligation of Monroeville to make payments to the Sanitary Authority with respect to the cost of the enlarged and added facilities constructed in order to accommodate Monroeville.

3. Except as modified hereby, the said Sewage Service Agreement, as amended by the Level Green Agreement, and the Level Green Agreement itself, shall remain in full force and effect.

4. The terms used herein which are defined in the Sewage Service Agreement or the Level Green Agreement shall have the meanings therein ascribed to such terms.

Whereas, The Local Public Agency has submitted a program for the relocation of individuals and families that may be displaced as a result of carrying out the Project in accordance with the Urban Renewal Plan, as modified by Modification No. 2; and

Whereas, There have also been presented to the Council information and data respecting the relocation program which has been prepared by the Local Public Agency as a result of studies, surveys and inspections in the Project area and the assembling and analysis of the data and information obtained from such studies, surveys and inspections; and

Whereas, The Members of Council have a general knowledge of the conditions prevailing in the Project area and of the availability of proper housing in the locality for the relocation of individuals and families that may be displaced from the Project area and, in the light of such knowledge of local housing conditions, have carefully considered and reviewed such proposals for relocation; and

Whereas, It is necessary that Council take appropriate official action respecting the relocation program and the Urban Renewal Plan, as modified by Modification No. 2, for the Project, in conformity with the contract for financial assistance between the Local Public Agency and the United States of America, acting by and through the Housing and Home Finance Administrator and the Secretary of Housing and Urban Development; and

Whereas, The Members of this Council are cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with Federal financial assistance under Title I, including those prohibiting discrimination because of race, color, creed or national origin.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That pursuant to the provisions of the Urban Redevelopment Law, Act of May 24, 1945, P. L. 991, as amended, and Title I of the Housing Act of 1949 (Public Law 171—81st Congress), as amended, the Proposal dated June, 1966, and without limiting the generality of the foregoing, Modification No. 2 to the Plan, incorporated therein, for the redevelopment of Redevelopment Area No. 10 in the 7th, 8th, 11th and 12th Wards of the City of Pittsburgh, which have been submitted to Council by the Urban Redevelopment Authority of Pittsburgh, be and are hereby approved as submitted to the Council of the City of Pittsburgh.

Section 6. That it is hereby found and determined that the Plan, as modified by Modification No. 2, for the Urban Renewal Area gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety and welfare of children residing in the general vicinity of the site covered by the Plan, as modified by Modification No. 2.

Section 7. That it is hereby found and determined that the program for the proper relocation of individuals and families displaced in carrying out the Project in decent, safe and sanitary dwellings in conformity with acceptable standards is feasible and can be reasonable and timely effected to permit the proper prosecution and completion of the Project; and that such dwellings or dwelling units available, or to be made available, to such displaced individuals and families are at least equal in number to the number of displaced individuals and families, are not generally less desirable in regard to public utilities and commercial facilities of the dwellings of the displaced individuals and families in the Project area, are available at rents or prices within the financial means of the displaced individuals and families and are reasonably accessible to their places of employment.

Section 8. That in order to implement and facilitate the effectuation of the Plan, as modified by Modification No. 2, hereby approved, it is found and determined that certain official action must be taken by this Council with reference, among other things, to changes in zoning, the vacation and removal of streets, alleys and other public ways, the establishment of new street patterns, the location and relocation of sewer and water mains and other public facilities and

No. 364

AN ORDINANCE—Authorizing an Agreement with Allegheny County Sanitary Authority and Papercraft Properties, Inc., a corporation created and existing under the laws of the Commonwealth of Pennsylvania with its principal office in the City of Pittsburgh, providing for sewage service to the property of the said corporation fronting on the Allegheny River in O'Hara Township and providing for charges for such service.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to enter into an Agreement with the Allegheny County Sanitary Authority and Papercraft Properties, Inc., providing for sewage service to the property of the said corporation fronting on the Allegheny River in O'Hara Township, the Agreement to be in substantially the following form:

THIS AGREEMENT

MADE and effective as of the _____ day of _____, 1966, by and among

CITY OF PITTSBURGH

(herein called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

ALLEGHENY COUNTY SANITARY
AUTHORITY

(herein called the "Sanitary Authority"), a municipal authority of the Commonwealth of Pennsylvania, and

PAPERCRAFT PROPERTIES, INC.

(herein called the "Company"), a corporation created and existing under the laws of the Commonwealth of Pennsylvania, having its principal office in the City of Pittsburgh, County of Allegheny, Pennsylvania,

WITNESSETH:

Whereas, The Company is constructing a plant fronting on the Allegheny River in the Township of O'Hara, Allegheny County, Pennsylvania; and

Whereas, Such waterfront companies whether incorporated or unincorporated are required by the Sanitary Water Board of the Commonwealth of Pennsylvania acting under the laws of the Commonwealth to treat their sewage and wastes and are not permitted to discharge untreated sewage or wastes into the streams of the Commonwealth; and

Whereas, The Sanitary Authority has constructed and is operating a large sewage treatment plant and many miles of intercepting sewers leading thereto (herein called the "Sewage Disposal System"); and

Whereas, The Sanitary Authority has also constructed and is operating an extension to its Sewage Disposal System known as the Upper Allegheny System, which conveys sewage to the Sewage Disposal System from areas upstream of Aspinwall on both sides of the Allegheny River, including the portion of O'Hara Township in which the Company's plant will be located; and

Whereas, Under the provisions of long-term municipal and industrial agreements, the Sanitary Authority is providing, by means of its Sewage Disposal System and the Upper Allegheny System, sewage collection, transportation, treatment and disposal service (herein called "sewage service") to homes and plants in seventy-one municipalities including the Township of O'Hara, and one of the Sanitary Authority's interception sewers is located along the Allegheny River; and

Whereas, The Company deems it economical and otherwise advantageous to have the sewage and acceptable wastes of its plant treated and disposed of by the said Sewage Disposal System pursuant to the terms of this Agreement, rather than to build and operate suitable treatment disposal facilities of its own; and

Whereas, It is more economical to have a direct connection to the Sanitary Authority's Upper Allegheny intercepting sewer than to construct a much longer connection to the municipal sewer of the Township of O'Hara (approximately 100 feet distant and at a higher elevation which would necessitate pumping); and

Whereas, The Sanitary Authority cannot undertake the Company's legal obligation to treat and dispose of its sewage and acceptable wastes unless the Company binds itself to take sewage treatment service exclusively from the Sewage Disposal System for the same long period of time as do all the participating municipalities and the other waterfront companies being served.

Now, Therefore, In consideration of the premises and the undertakings of each party to the others, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows:

1. The form of long-term agreement by and among the City, the Sanitary Authority and certain municipalities, including the Township of O'Hara, served by the Upper Allegheny System (sometimes hereinafter referred to as the "Upper Allegheny Agreement"), of which a copy has been submitted to the Company, is incorporated herein and made a part of this Agreement by reference thereto. Except as otherwise provided herein, all relevant provisions of said Upper Allegheny Agreement shall be binding upon the parties hereto, the Company hereby acquiring all the applicable rights and becoming subject to all the applicable obligations of the party referred to therein as the "Municipality." The terms used herein shall have the same meanings herein as those given them in the said Upper Allegheny Agreement, and the term "Sewage Agency" therein shall mean Allegheny County Sanitary Authority, one of the parties hereto.

2. The Company hereby designates, engages and appoints the Sanitary Authority (which the City has designated to be the Sewage Agency under the several Municipal Agreements) as the sole and exclusive agency, during the entire life of this Agreement, to provide sewage collection, treatment and disposal service (subject to the provisions hereinafter contained) to the plants, buildings and other premises which the Company may occupy on land in the Township of O'Hara and described in the deed dated June 18, 1965, from the County of Allegheny and the Allegheny County Workhouse and Inebriate Asylum to the Regional Industrial Development Corporation of Southwestern Pennsylvania and recorded in the office of the Recorder of Deeds of Allegheny County, Pennsylvania, in Deed Book Volume 4282, page 371, which land the Company has contracted in writing to purchase from the said Regional Industrial Development Corporation of Southwestern Pennsylvania, and to the Company's future plants, buildings and other premises on the same land or on land adjacent thereto and to such adjacent premises (all of which are hereinafter referred to as "the plants, buildings and premises covered by this Agreement"). The Company agrees that during such period it will not itself provide such treatment and disposal service, except for the pre-treatment of such wastes as shall require pre-treatment and except for the treatment and disposal of wastes and other materials which must be excluded from the Sewage Disposal System.

3. This Agreement shall run with the above mentioned land and shall be binding upon all present and future legal and equitable owners, tenants and occupants thereof during the life of this Agreement.

4. Subject to the provisions of Paragraphs 5 and 6 of this Agreement, the Sanitary Authority will accept into its intercepting sewer all the sewage and acceptable wastes of the Company's plants, building and premises covered by this Agreement, transport such sewage and wastes to its treatment plant, and provide such treatment and disposal thereof as may be required by law; provided, however, that the Sanitary Authority shall have the right to refuse to

accept for treatment and disposal by the Sewage System the sewage or wastes of any future plant, building or premises of the Company if in the judgment of the Sanitary Authority the quantity of such sewage or wastes would overload its intercepting sewer. In such event, the Sanitary Authority will, if the Company so desires, design, construct and operate a separate treatment and disposal system for such future plant, building or premises, provided that the entire cost thereof shall be borne by the Company.

The Company shall provide for the separation of sanitary sewage and acceptable wastes from storm or surface drainage. Only sanitary sewers shall be connected directly or indirectly with the Sewage Disposal System, and the Company shall not permit the discharge thereinto of storm or surface water, unacceptable industrial wastes, any surface or sub-surface stream, or the acid drainage of a coal mine. If any such condition exists or occurs, and if the Company does not promptly exclude or divert the unacceptable matter or flow, the Sanitary Authority shall have the right to disconnect the Company's offending sewer at the expense of the Company, and shall not be liable therefor in any way to the Company.

5. For the collection, treatment and disposal service provided by the Sanitary Authority the Company covenants to pay promptly to the Sanitary Authority the Sanitary Authority's established Upper Allegheny Zone 1 sewage service charges. Such charges shall be based upon

- (a) the quantity of water, from whatever source, used in or on the plants, buildings and premises of the Company (less quantity credits provided for in Paragraph 12 of the Municipal Agreement) and
- (b) the character—as to suspended solids, biochemical oxygen demand, chlorine demand, etc.—of the sewage and industrial wastes discharged into any sewer connected directly or indirectly with the Sewage Disposal System,

and shall be billed monthly, quarterly, semi-annually or annually, at the option of the Sanitary Authority.

It shall be the obligation of the Company to install and maintain in good operating condition meters or other measuring devices approved by the Sanitary Authority for measuring the quantity of such water, and the Company shall permit the Sanitary Authority or its designee to read such meters or other measuring devices periodically. If for any reason the Sanitary Authority shall not obtain such quantity data for any billing period, it shall have the right to estimate the same and to use such estimated quantity in computing its charges.

In order to determine the character of the industrial wastes discharged into the Sewage Disposal System, for the purpose of computing its charges and also for the purpose of excluding unacceptable wastes and materials, the Sanitary Authority shall have the right to inspect the Company's plants, buildings and premises, and to take samples of the sewage and wastes discharged therefrom.

6. The Sanitary Authority shall have the right to designate a list of unacceptable wastes (e.g., specified oils, acids, toxic wastes, etc.) which in its opinion may be harmful to its sewers, pumping stations or other structures or may interfere with the sewage treatment processes at its plant, and to change such list from time to time. The Company shall receive due notice of such unacceptable wastes. The Company agrees to so operate its plants, buildings and premises, and to provide and properly operate such pre-treatment or other facilities to be specified and approved by the Sanitary Authority, subject to the approval of the State Board, as will assure the exclusion of all such unacceptable wastes from all sewers connected directly or indirectly with the Sewage Disposal System.

7. In accordance with the policy set forth in Paragraph 7 of the Municipal Agreement, it shall be the obligation of the Company to bring its sewage and wastes to suitable points of connection with the Sanitary Authority's Upper intercepting sewer, such points to be designated by the Sanitary Authority. At each such point a manhole, if none exists, shall be constructed for the purpose by the Sanitary Authority at the Company's expense, and each such connection shall be deemed a separate customer account for the purpose of calculating and billing the Sanitary Authority's sewage service charge. The only points of connection which the Sanitary Authority will provide to serve the Company's present plants, buildings and premises shall be as follows:

The existing manhole on the Sanitary Authority's present Upper Allegheny interceptor sewer at Station 22+40 (as shown on Sheet 9 of the Sanitary Authority's Contract 64) and a direct connection to the intercepting sewer at Station 27+70 (as shown on Meucci Engineering Inc. drawing dated August 31, 1965 entitled "Proposed Connection and Manhole Adjustments to Alcosan Sanitary Sewer" on file in the Engineering Department of the Allegheny County Sanitary Authority.)

It shall be the obligation of the Company to construct and maintain the necessary collecting sewers to bring all its sewage and acceptable wastes to the Sanitary Authority's intercepting sewer, all to be as approved by the Sanitary Authority. Whereas, By Ordinance No. 5, Series of 1950, approved January 27, 1950, the

Whereas, By the terms of the Redevelopment Contract between The Equitable Life Assurance Society of the United States ("Equitable") and the Authority, dated February 14, 1950, Equitable has agreed, *inter alia*, "to dedicate for street purposes to the City of Pittsburgh a strip of ground approximately ten (10) feet wide for the widening of Perry Street (now called Stanwix Street) on its westerly side, extending the full length of said street, to insure the said street a width of eighty (80) feet; provided, however, that this dedication shall apply only with respect to land and shall not operate as a waiver of damages by the Redeveloper in the event that it becomes necessary to alter or demolish any building for the purposes of street widening"; and

Whereas, By said Cooperation Agreement dated March 15, 1950, between the City and the Authority, the City agreed, *inter alia*, "To widen, relocate, establish and adjust grades for, construct or reconstruct Stanwix Street without cost to the Authority or Redeveloper and establish a setback line on Ferry Street as shown on Plan of Redevelopment Area No. 1"; and

Whereas, The City desires to complete the widening of Stanwix Street along its entire length from Liberty Avenue to Fort Pitt Boulevard by acquiring said ten (10) foot strip between First Avenue and Fort Pitt Boulevard from

Equitable and by thereafter constructing a widened cartway; and

Whereas, Such widening of Stanwix Street between First Avenue and Fort Pitt Boulevard will require the demolition of the ten-story structure known as the Hostetter Building on the tract abutting Stanwix Street designated as Block 1-G, Lot 239 and owned by Equitable (the "Hostetter Building property"); and

Whereas, Equitable has, pursuant to the terms of Article IV of the Redevelopment Contract, submitted to the Authority a plan for further development by Equitable of the Hostetter Building property and adjacent properties; and

Whereas, At the same time as the introduction of this Ordinance, the City has introduced an ordinance vacating the portion of First Avenue between Stanwix Street and former Short Street and vacating Blockhouse Way between Boulevard of the Allies and Fort Pitt Boulevard, upon terms and conditions acceptable to Equitable and the City; and

Whereas, The City wishes by this Ordinance to provide for its acceptance of the dedication by Equitable of the portion of the aforesaid ten (10) foot strip on the westerly side of Stanwix Street lying between First Avenue and Fort Pitt Boulevard, such portion being a part of the Hostetter Building property; and

wix Street from First Avenue to Fort Pitt Boulevard upon certain terms and conditions hereinafter set forth.

BEGINNING at the intersection of the northerly line of Fort Pitt Boulevard (formerly Water Street) and the present westerly line of Stanwix Street (formerly Ferry Street) 70.08 feet in width; thence North $63^{\circ} 49' 20''$ West along the northerly line of Fort Pitt Boulevard 10.002 feet to a point; thence North $27^{\circ} 14' 15''$ East along a line parallel to and 10.002 feet West of the present westerly line of Stanwix Street 160.170 feet more or less to the southerly line of First Avenue; thence South $63^{\circ} 49' 20''$ East along the southerly line of First Avenue 10.002 feet to the westerly line of Stanwix Street 70.08 feet in width; thence by said westerly line of Stanwix Street South $27^{\circ} 14' 15''$ West 160.170 feet more or less to the point at the place of beginning.

Section 2. The foregoing dedication is subject to the following terms and conditions:

(a) Any and all costs, damages and expenses, and claims or demands for the same, which may now or hereafter be due to The Equitable Life Assurance Society of the United States, its successors and assigns, by reason of the widening of Stanwix Street on the westerly side thereof between the southerly line of First Avenue and the northerly line of Fort Pitt Boulevard, the necessary consequential demolition of the Hostetter Building, and the grading, paving and curbing of Stanwix Street as so widened, shall be and hereby are forever waived, barred, surrendered, remised and released.

(c) Equitable will demolish the Hostetter Building with due diligence commencing not later than June 1, 1967, or at such earlier time as it may elect.

(d) Promptly after the completion of the demolition of the Hostetter Building the City will commence and prosecute with due diligence, at its own cost and expense, the physical widening and the grading, paving and curbing of Stanwix Street between First Avenue and Fort Pitt Boulevard. Such widening shall include any necessary relocation or reconstruction of any City facilities, including fire hydrants, sewer lines and storm sewer inlets. The City and Equitable will cooperate so as to coordinate such work with the construction by Equitable of a new office building and parking garage on the Hostetter Building property and adjacent properties so that neither work will unreasonably interfere with the prosecution of the other and so that the widening of Stanwix Street will be completed not later than 30 days prior to the date on which Equitable opens said building and parking garage to use by its tenants and others.

(e) Equitable will at its own expense construct the sidewalk adjacent to the widened cartway of Stanwix Street, and the City and Equitable will coordinate this construction so that it is completed when the grading, paving and curbing of the said widened cartway is completed.

(f) The dedication herein contemplated is predicated upon the enactment by the Council of the City of Pittsburgh and the approval by the Mayor of this Ordinance and of an ordinance vacating the portion of First Avenue between Stanwix Street and former Short Street and vacating Blockhouse Way between Fort Pitt Boulevard of the Allies and Fort Pitt Boulevard, and Equitable shall be under no obligation to deliver the deed of dedication mentioned in Section 1 above unless such ordinances are enacted and approved.

Section 3. The deed of dedication mentioned in Section 1 above shall be unconditional, but the delivery thereof by Equitable and the acceptance thereof by the City shall not relieve the City and Equitable of their respective ob-

ligations under subsections (c), (d) and (e) of Section 2 above.

Section 4. If the terms of this Ordinance are not accepted in writing by Equitable by the filing of its duly executed certificate of acceptance of the terms hereof with the City Controller within 90 days of the approval hereof, this Ordinance shall be null and void and of no effect.

No. 560

AN ORDINANCE—Authorizing and directing the Mayor and the Director of the Department of Public Works, on behalf of the City of Pittsburgh, to enter into an agreement with the Allegheny County Sanitary Authority and the Blaw-Knox Company providing for the taking by said Company of sewage treatment service exclusively from said

Authority's Sewage Disposal System for the same period of time as do all the participating municipalities and other waterfront companies being serviced.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. The Mayor and the Director of the Department of Public Works on behalf of the City of Pittsburgh, are hereby authorized and directed to enter into an agreement with the Allegheny County Sanitary Authority and the Blaw-Knox Company providing for the taking by said Company of sewage treatment service exclusively from said Authority's Sewage Disposal System for the same period of time as do all the participating municipalities and other waterfront companies being serviced, upon certain terms and conditions, in substantially the following form:

THIS AGREEMENT

Made and effective as of the _____ day of _____, 1966, by and among

CITY OF PITTSBURGH

(herein called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

ALLEGHENY COUNTY SANITARY AUTHORITY

(herein called the "Sanitary Authority"), a municipal authority of the Commonwealth of Pennsylvania, and

BLAW-KNOX COMPANY

(herein called the "Company"), a corporation created and existing under the laws of the Commonwealth of Pennsylvania, having its principal office in the City of Pittsburgh, County of Allegheny, Pennsylvania,

WITNESSETH:

Whereas, The Company is constructing a new plant building known as its Tubular Products Building fronting on the Allegheny River in the Borough of Blawnox, Allegheny County, Pennsylvania; and

Whereas, Such waterfront companies whether incorporated or unincorporated are required by the Sanitary Water Board of the Commonwealth of Pennsylvania acting under the laws of the Commonwealth to treat their sewage and wastes and are not permitted to discharge untreated sewage or wastes into the streams of the Commonwealth; and

Whereas, The Sanitary Authority has constructed and is operating a large sewage treatment plant and many miles of intercepting sewers leading thereto (herein called the "Sewage Disposal System"); and

Whereas, The Sanitary Authority has also constructed and is operating an extension to its Sewage Disposal System known as the Upper Allegheny System, which conveys sewage to the Sewage Disposal System from areas upstream of Aspinwall on both sides of the Allegheny River, including the portion of the Borough of Blawnox in which the Company's plant will be located; and

Whereas, Under the provisions of long-term municipal and industrial agreements the Sanitary Authority is providing, by means of its Sewage Disposal System and the Upper Allegheny System, sewage collection transportation, treatment and disposal service (herein called "sewage service") to homes and plants in seventy-one municipalities including the Borough of Blawnox, and one of the Sanitary Authority's intercepting sewers is located along the Allegheny River; and

Whereas, The Company deems it economical and otherwise advantageous to have the sewage and acceptable wastes of its said new Tubular Products Building treated and disposed of by said Sewage Disposal System pursuant to the terms of this Agreement, rather than to build and operate suitable treatment and disposal facilities of its own; and

Whereas, It is more economical to have a direct connection for said new Tubular Products Building to the Sanitary Authority's Upper Allegheny intercepting sewer than to construct a much longer connection to the municipal sewer of the Borough of Blawnox (approximately 100 feet distant and at a higher eleva-

tion which would necessitate pumping); and

Whereas, The Sanitary Authority cannot undertake the Company's legal obligation to treat and dispose of its sewage and acceptable wastes unless the Company binds itself to take sewage treatment service exclusively from the Sewage Disposal System for the same long period of time as do all the participating municipalities and the other waterfront companies being serviced.

Now, Therefore, In consideration of the premises and the undertakings of each party to the others, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows:

1. The form of long-term agreement by and among the City, the Sanitary Authority and certain municipalities, including the Borough of Blawnox, served by the Upper Allegheny System (sometimes hereinafter referred to as the "Upper Allegheny Agreement"), of which a copy has been submitted to the Company, is incorporated herein and made a part of this Agreement by reference thereto. Except as otherwise provided herein, all relevant provisions of said Upper Allegheny Agreement shall be binding upon the parties hereto, the Company hereby acquiring all the applicable rights and becoming subject to all the applicable obligations of the party referred to therein as the "Municipality". The terms used herein shall have the same meanings herein as those given them in the said Upper Allegheny Agreement, and the term "Sewage Agency" therein shall mean Allegheny County Sanitary Authority, one of the parties hereto.

2. The Company hereby designates, engages and appoints the Sanitary Authority (which the City has designated to be the Sewage Agency under the several Municipal Agreements and the Upper Allegheny Agreement) as the sole and exclusive agency, during the entire life of this Agreement, to provide sewage collection, treatment and disposal service (subject to the provisions hereinafter contained) to the aforesaid new Tubular Products Building and any other structures or facilities which the Company may now occupy on land in

the Borough of Blawnox including land described as follows, to wit:

Beginning from a concrete monument located 6.38 feet down river from Allegheny County Sanitary Authority Station 51+10 proceed N 56°—42' E along Pennsylvania Railroad—Conemaugh Division a distance of six hundred twenty and thirty-eight hundredths feet (620.38') to a point; thence along said railroad N 54°—16' E a distance of one hundred and ten hundredths feet (100.10') to a stone; thence S 2°—37' W a distance of five hundred twenty feet (520') more or less, to the harbor line as established by the Authority of the United States of America in the Allegheny River; thence down said river, following harbor line by the various courses and distances thereof, four hundred feet (400') more or less; turn generally in a northeasterly direction and proceed two hundred seventy-five feet (275') to within twelve feet (12') of new building; turn in a northwesterly direction and proceed two hundred and ten feet (210'); turn 90° in a northeasterly direction proceed three hundred feet (300') more or less and to the property line. Proceed N 55°—47' E fifteen and sixty-three hundredths feet (15.63') to the place of beginning.

Being part of the land which Albert C. Lehman, unmarried, by his Deed dated March 31, 1924 and recorded in the Recorder's Office of Allegheny County in Deed Book Volume 2223, Page 216, granted and conveyed unto Blaw-Knox Company, a corporation, one of the parties to this Agreement;

and to the Company's plants, buildings and other facilities on the said land and on land adjacent thereto (all of which are hereinafter referred to as "the plants, buildings and premises covered by this Agreement"). The Company agrees that during such period it will not itself provide such treatment and disposal service, except for the pre-treatment of such wastes as shall require pre-treatment and except for the treatment and disposal of wastes and other materials which must be excluded from the Sewage Disposal System.

3. This Agreement shall run with the above-mentioned land and shall be binding upon all present and future legal

and equitable owners, tenants and occupants thereof during the life of this Agreement.

4. Subject to the provisions of Paragraphs 5 and 6 of this Agreement, the Sanitary Authority will accept into its intercepting sewer all the sewage and acceptable wastes of the Company's plants, buildings and premises covered by this Agreement, transport such sewage and wastes to its treatment plant, and provide such treatment and disposal thereof as may be required by law; provided, however, that the Sanitary Authority shall have the right to refuse to accept for treatment and disposal by the Sewage Disposal System the sewage or wastes of any future plants, buildings or facilities erected on the above described land or on adjacent land of the Company if in the judgment of the Sanitary Authority the quantity of such sewage or wastes would overload its intercepting sewer. In such event, the Sanitary Authority will, if the Company so desires, design, construct and operate a separate treatment and disposal system for such future plants, buildings or facilities, provided that the entire cost thereof shall be borne by the Company.

The Company shall provide for the separation of sanitary sewage and acceptable wastes from storm or surface drainage. Only sanitary sewers shall be connected directly or indirectly with the Sewage Disposal System, and the Company shall not permit the discharge therein of storm or surface water, unacceptable industrial wastes, any surface or sub-surface stream, or the acid drainage of a coal mine. If any such condition exists or occurs, and if the Company does not promptly exclude or divert the unacceptable matter or flow, the Sanitary Authority shall have the right to disconnect the Company's offending sewer at the expense of the Company, and shall not be liable therefor in any way to the Company.

5. For the collection, treatment and disposal service provided by the Sanitary Authority, the Company covenants to pay promptly to the Sanitary Authority the Sanitary Authority's established Upper Allegheny Zone 1 sewage service charges. Such charges shall be based upon

(a) the quantity of water, from what-

ever source, used in or on the plants, buildings and premises of the Company (less quantity credits provided for in Paragraph 12 of the Municipal Agreement) and

(b) the character — as to suspended solids, biochemical oxygen demand, chlorine demand, etc. — of the sewage and industrial wastes discharged into any sewer connected directly or indirectly with the Sewage Disposal System,

and shall be billed monthly, quarterly, semi-annually or annually, at the option of the Sanitary Authority.

It shall be the obligation of the Company to install and maintain in good operating condition meters or other measuring devices approved by the Sanitary Authority for measuring the quantity of such water, and the Company shall permit the Sanitary Authority or its designee to read such meters or other measuring devices periodically. If for any reason the Sanitary Authority shall not obtain such quantity data for any billing period, it shall have the right to estimate the same and to use such estimated quantity in computing its charges.

In order to determine the character of the industrial wastes discharged into the Sewage Disposal System, for the purpose of computing its charges and also for the purpose of excluding unacceptable wastes and materials, the Sanitary Authority shall have the right to inspect the Company's plants, buildings and premises covered by this Agreement, and to take samples of the sewage and wastes discharged therefrom.

6. The Sanitary Authority shall have the right to designate a list of unacceptable wastes (e. g., specified oils, acids, toxic wastes, etc.) which in its opinion may be harmful to its sewers, pumping stations or other structures or may interfere with the sewage treatment processes at its plant, and to change such list from time to time. The Company shall receive due notice of such unacceptable wastes. The Company agrees to so operate its plants, buildings and premises covered by this Agreement, and to provide and properly operate such pre-treatment or other facilities to be specified and approved by the Sanitary Authority, subject to the approval of the State

Board, as will assure the exclusion of all such unacceptable wastes from all sewers connected directly or indirectly with the Sewage Disposal System.

7. In accordance with the policy set forth in Paragraph 9 of the Upper Allegheny Agreement, it shall be the obligation of the Company to bring the sewage and acceptable wastes of all plants, buildings and premises covered by this Agreement either to approved municipal sewers or to suitable points of direct connection with the Sanitary Authority's Upper Allegheny intercepting sewer, such points to be designated by the Sanitary Authority. At each point of connection a manhole, if none exists, shall be constructed by or with the prior approval of the Sanitary Authority at the Company's expense, and each such connection shall be deemed a separate customer account for the purpose of calculating and billing the Sanitary Authority's sewage service charges. The only point of connection which the Sanitary Authority will at present allow to serve the Company's Tubular Products Building and all the other plants, buildings and premises covered by this Agreement shall be as follows:

The existing manhole on the Sanitary Authority's present Upper Allegheny intercepting sewer at Station 51 + 10 (as shown on Sheet 11 of the Sanitary Authority's Contract 64).

It shall be the obligation of the Company to construct and maintain the necessary collecting sewers to bring all its sewage and acceptable wastes from the plants, buildings and premises covered by this Agreement to the Sanitary Authority's intercepting sewer, all to be as approved by the Sanitary Authority. The aforementioned connection and all future connections shall be made by or at the expense of the Company, and the Company agrees to pay promptly the entire cost thereof, including the cost of new manholes, manhole stubs, and such other facilities as the Sanitary Authority may deem it necessary to provide or require.

The Company hereby agrees to grant to the Sanitary Authority, without additional consideration, a perpetual easement to construct, maintain and operate in their present location, and at the option of the Sanitary Authority to re-

construct, maintain and operate in a more accessible adjacent location, such portions of the Sewage Disposal System as may be located on the Company's land; and the Company covenants to execute, acknowledge and deliver without charge a suitable deed or other confirmatory document to be recorded.

The parties agree that the Company shall have the right at any time to connect any of its sewers into any approved municipal sewer that is connected to the Sanitary Authority's intercepting sewer, all at the Company's expense and in accord with applicable laws and regulations, and thus discontinue discharging part or all of its sewage and waste directly into the Sanitary Authority's intercepting sewer.

8. This Agreement shall become effective immediately, and shall remain in full force and effect until the date of expiration of the legal existence of the Sanitary Authority or until the expiration of one calendar year following the payment in full of all bonds, notes and other obligations of the Sanitary Authority, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and the Upper Allegheny System and additions, whichever date shall be later.

No. 566

AN ORDINANCE—To provide for the general revenue by imposing a tax upon the transactions involved in parking motor vehicles at commercial parking places, as measured by the gross receipts received therefrom by the operators thereof; requiring a license and the payment of the tax as a condition to the conducting of such transactions; providing for the levy and collection of

such tax; prescribing requirements for returns and records; conferring powers and duties upon the Treasurer; and imposing penalties.

Whereas, Commercial parking places for motor vehicles, by reason of the frequency rate of their use, the changing intensity of their use at various hours of the day, their location, their relationship to traffic congestion and other characteristics, present problems affecting municipal services and the public interest, differently from parking places accessory to the use and occupancy of residences; and

Whereas, A tax for general revenue purposes upon the transactions involved in parking or storing motor vehicles at commercial parking places would therefore be appropriate;

Now, Therefore,

The Council of the City of Pittsburgh, under the authority of Act No. 511 of 1965, and its amendments, hereby enacts as follows:

Section 1. Title: This ordinance shall be known and may be cited as the "Parking Tax Ordinance."

Section 2. Definitions: As used in this ordinance, unless the context indicates clearly a different meaning, the following words and phrases shall have the meanings set forth below:

(a) "City"—the City of Pittsburgh.

(b) "Person"—Any natural person, partnership, unincorporated association or corporation. Whenever used in any provision prescribing a fine or a penalty, the word "person," as applied to partnerships, shall mean the partners thereof, as applied to unincorporated associations, shall mean the members thereof, and as applied to corporations, shall mean the officers thereof.

(c) "Commercial parking place" or "parking place"—any place within the city, whether wholly or partially enclosed or open, at which motor vehicles are parked or stored for any period of time in return for a consideration not including: (1) any parking area or garage to the extent that it is provided or leased to occupants of a residence on the same or other premises for use only

in connection with, and as accessory to, the occupancy of such residence, and (ii) any parking area or garage operated exclusively by an owner or lessee of a hotel, an apartment hotel, tourist court or trailer park, to the extent that the parking area or garage is provided to guests or tenants of such hotel, tourist court or trailer park for no additional consideration.

As used herein, the term "residence" included (i) any building designed and used for living or sleeping purposes other than a hotel, apartment hotel, tourist court or trailer park, and (ii) any dwelling unit located in a hotel or apartment hotel.

The terms "Hotel," "apartment hotel," "tourist court," "trailer park" and "dwelling unit" are used herein as defined in the Zoning Ordinance, Ordinance No. 192, approved May 10, 1958, as amended.

(d) "Month"—a calendar month.

(e) "Operator"—any person conducting the operation of a parking place or receiving the consideration for the parking or storage of motor vehicles at such parking place; the term does not include the city but does include the Public Parking Authority of the City of Pittsburgh and does include operators on premises of Public Parking Authority of the City of Pittsburgh.

(f) "Transaction" — the transaction involved in the parking or storing of a motor vehicle at a commercial parking place for a consideration.

(g) "Consideration"—refers to consideration received upon an express or implied contract or under a lease or otherwise, whether or not separately stated, and whether or not paid, provided or allowed by the person on whose behalf the motor vehicle is parked or stored or by some other person.

(h) "Gross receipts"—the monetary amount of the aggregate consideration from transactions.

(i) "Treasurer"—the Treasurer of the City of Pittsburgh.

Section 3. Imposition of Tax: A tax for general revenue purposes is hereby imposed upon all transactions of each

operator with respect to each commercial parking place, at the rate of ten per cent (10%) of the gross receipts from all such transactions received during the year 1967. No person shall conduct such transactions without complying with all the provisions of this ordinance and paying the tax hereby imposed.

Section 4. Annual License: No operator shall conduct the operation of a commercial parking place without obtaining for each parking place an annual license from the Director of the Department of Public Safety of the City of Pittsburgh as required by Ordinance No. 435, approved December 27, 1962, within the time specified. Any operator not possessing such license for each parking place for the year 1967 shall obtain such license within thirty (30) days after the effective date of this Ordinance, and any person who intends to begin conducting operation of a commercial parking place shall obtain such license before beginning such operation. At each parking place, the operator shall display the license in a conspicuous location at all times. Such licenses shall not be transferable between one operator and another or between one parking place and another. Any operator who ceases to conduct the operation of a parking place shall notify the Treasurer and return the license applicable thereto.

Section 5. Records: Each operator shall maintain, separately with respect to each parking place, complete and accurate records of transactions and of gross receipts of all transactions. Each operator shall issue to the person paying consideration written evidence of such transactions or classes of transactions as the Treasurer may prescribe by regulations. Where consideration in a transaction is not separately stated, the operator shall maintain such evidence and records as are necessary to segregate the consideration applicable to the transaction. Each operator shall afford the Treasurer and his designated employees and agents access to all such records and evidence at all reasonable times and shall provide verification of the same as the Treasurer may require.

Section 6. Returns and Payments: Each operator, upon forms prescribed by the Treasurer shall file, on or before

April 30, 1967, July 31, 1967, October 31, 1967, and January 31, 1968, returns showing gross receipts received with respect to each parking place during the respective three-month period ending on the last day of the month preceding the month in which the return due date occurs. At the time of filing the return, the operator shall pay to the Treasurer all tax due for the period to which the return applies.

Any operator who for the preceding quarterly period has failed to pay over the proper amount of tax to the Treasurer may be required by the Treasurer to file subsequent returns and pay the tax monthly. In such cases, payments of the tax shall be made to the Treasurer on or before the last day of the month succeeding the month for which the tax was due.

The City Treasurer is hereby authorized to accept payment under protest of the amount of parking tax claimed by the City in any case where the taxpayer disputes the validity or amount of the City's claim for tax. If it is thereafter judicially determined by a court of competent jurisdiction that the City has been overpaid, the amount of the overpayment shall be refunded to the taxpayer.

Section 7. Treasurer's Powers and Duties: The Treasurer, on behalf of the City, shall receive and collect the taxes, interest, fines and penalties imposed by this Ordinance, and shall maintain records showing the amounts received and the dates such amounts were received. The Treasurer shall adopt and enforce regulations relating to any matter pertaining to the administration of this Ordinance, including, but not limited to, requirements for evidence and records and forms for applications, licenses and returns.

Section 8. Collection: The Treasurer shall collect, by suit or otherwise, all taxes, interest, costs, fines and penalties due under this Ordinance and unpaid. If for any reason, any tax is not paid when due, interest at the rate of six per cent (6%) per year on the amount of unpaid tax and an additional penalty of one-half of one per cent (1/2 of 1%) of the amount of unpaid tax for each month or fraction of month during which tax remains unpaid shall be added

and collected. Whenever suit is brought for the recovery of unpaid tax, the operator shall, in addition, be liable for the costs of collection as well as for interest and penalties.

Section 9. Violation: Any person who violates any provision of this Ordinance or any regulation adopted pursuant to it shall, upon conviction thereof before any alderman or magistrate, be liable for a fine of not more than three hundred dollars (\$300.00) or, in default of payment of such fine, shall be imprisoned in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days.

Section 10. Severability. If a final decision of a court of competent jurisdiction holds any provision of this Ordinance, or the application of any provision to any circumstances, to be illegal or unconstitutional, the other provisions of this Ordinance, or the application of such provision to other circumstances, shall remain in full force and effect. The intention of Council is that the provisions of this Ordinance shall be severable and that this Ordinance would have been adopted if any such illegal or unconstitutional provisions had not been included.

Section 11. Effective date: This Ordinance shall become effective January 1, 1967.

Section 12. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance.

on which the taxpayer first anticipates such net profits. The taxpayer making the declaration shall, at the time of filing thereof pay to the Treasurer the estimated amount of tax as due thereon. Provided, however, that the taxpayer shall have the right to pay the estimated tax in equal installments on or before the quarterly installment payment dates which remain after the filing of the declaration.

(4) On or before April 15, of the succeeding year, every taxpayer who has received net profits shall make and file with the Treasurer, on a form prescribed by him, a final return showing all his net profits for the period beginning January 1, and ending December 31, of the current year, the total amount of tax due, the amount of estimated tax paid under the provisions of this section, and the balance due. Any taxpayer may, in lieu of paying the fourth quarterly installment of his estimated tax, elect to make and file with the Treasurer on or before January 31, of the succeeding year, with the final return as hereinabove required. At the time of filing the final return the taxpayer shall pay the balance of the tax due or shall make demand for refund or credit in the case of overpayment.

(b) Every employer having an office, factory, workshop, branch, warehouse, or other place of business, within the City of Pittsburgh who employs one or more persons, other than domestic servants, on a salary, wage, commission or other compensation basis, shall deduct monthly, or more often than monthly, at the time of payment thereof, the tax imposed by this ordinance on the salaries, wages, commissions and other compensation due to his employee or employees, and shall, on or before April 30, of the current year, July 31, of the current year, October 31, of the current year, and January 31, of the succeeding year, file a return of taxes deducted on a form prescribed by the Treasurer, and pay to the Treasurer the amount of taxes deducted during the preceding three-month periods ending March 31, of the current year, June 30, of the current year, September 30, of the current year, and December 31, of the current year, respectively.

Any employer who for two of the pre-

ceding four quarterly periods has failed to deduct the proper tax, or any part thereof, or has failed to pay over the proper amount of tax to the taxing authority, may be required by the officer to file his return and pay the tax monthly. In such cases, payments of tax shall be made to the officer on or before the last day of the month succeeding the month for which the tax was withheld.

(c) On or before February 28, of the succeeding year, every such employer shall file with the Treasurer on forms prescribed by him.

(2) A return for each employee employed during all or any part of the period beginning January 1, 1967 and ending December 31, 1967, and thereafter from year to year on a calendar year basis, setting forth the employee's name, address and Social Security number, the amount of salaries, wages, commissions or other compensation paid to the employee during said period, the amount of tax deducted, the amount of tax paid to the Treasurer, and such other information as the Treasurer may require. Every employer shall furnish a copy of the individual return to the employee for whom it is filed.

Section 5. Powers and Duties of Treasurer.

(a) It shall be the duty of the Treasurer to collect and receive the taxes, fines and penalties imposed by this ordinance. It shall also be his duty to keep a record showing the amount received by him from each person paying the tax and the date of such receipt.

(b) The Treasurer is hereby charged with the administration and enforcement of the provisions of this ordinance, and is hereby empowered to prescribe, adopt, promulgate and enforce rules and regulations relating to any matter pertaining to the administration and enforcement of this ordinance, including provisions for the reexamination and correction of declarations and returns, and of payments alleged or found to be incorrect, or as to which an overpayment is claimed or found to have occurred, and to prescribe forms necessary for the administration of this ordinance.

(c) The Treasurer and agents designated by him are hereby authorized to examine the books, papers and records of any employer or supposed employer, or of any taxpayer or supposed taxpayer, in order to verify the accuracy of any declaration or return, of if no declaration or return was filed, to ascertain the tax due. Every employer or supposed employer, and every taxpayer or supposed taxpayer, is hereby directed and required to give to the Treasurer, or to any agent designated by him, the means, facilities and opportunity for such examinations and investigations, as are hereby authorized.

(d) Any information gained by the Treasurer, his agents, or by any other official or agent of the City of Pittsburgh, as a result of any declarations, returns, investigations, hearing or verifications required or authorized by this ordinance, shall be confidential, except for official purposes and except in accordance with a proper judicial order, or as otherwise provided by law.

(e) The Treasurer is authorized to establish different filing, reporting and payment dates for taxpayers whose fiscal years do not coincide with the calendar year.

Section 6. Suit for Collection of Tax.

(a) The Treasurer may sue for the recovery of taxes due and unpaid under this ordinance.

(b) Any suit brought to recover the tax imposed by this ordinance shall be begun within three (3) years after such tax is due, or within three (3) years after the declaration or return has been filed, whichever date is later. Provided, however, that this limitation shall not prevent the institution of a suit for the collection of any tax due or determined to be due in the following cases:

(1) Where no declaration or return was filed by any person although a declaration or return was required to be filed by him under the provisions of this ordinance, there shall be no limitation.

(2) Where an examination of the declaration or return filed by any person, or of other evidence relating to such declaration or return in the possession of the Treasurer, reveals a fraudulent evasion of taxes, there shall be no limitation.

(3) In the case of substantial understatement of tax liability of twenty-five per cent (25%) or more, and no fraud, suit shall be begun within six (6) years.

(4) Where any person has deducted taxes under the provisions of this ordinance, and has failed to pay the amounts so deducted to the Treasurer, or where any person has wilfully failed or omitted to make the deduction required by this ordinance, there shall be no limitation.

Section 7. Interest and Penalties.

If for any reason the tax is not paid when due, interest at the rate of six per cent (6%) per annum on the amount of said tax, and an additional penalty of one-half of one per cent ($1/2$ of 1%) of the amount of the unpaid tax for each month or fraction thereof during which the tax remains unpaid, shall be added and collected. Where suit is brought for the recovery of any such tax, the person liable therefor shall, in addition, be liable for the costs of collection and the interest and penalties herein imposed.

Section 8. Payment under Protest and Refunds.

The Treasurer is hereby authorized to accept payment under protest of the amount of tax claimed by the City in case where any person disputes the va-

lidity or amount of the City's claim for the tax. If it is thereafter judicially determined by a court of competent jurisdiction that there has been overpayment to the Treasurer, the amount of the overpayment shall be refunded to the person who paid under protest. All refunds shall be made in conformance with the procedure prescribed in Ordinance No. 162, approved May 9, 1962.

Section 9. Applicability.

The tax imposed by this ordinance shall not apply:

(a) To any person as to whom it is beyond the legal power of the City of Pittsburgh to impose the tax herein provided for under the Constitution of the United States and the Constitution and laws of the Commonwealth of Pennsylvania.

(b) To institutions or organizations operated for public, religious, educational or charitable purposes, to institutions or organizations not organized or operated for private profit, or to trusts and foundations established for any of the said purposes.

This section shall not be construed to exempt any person who is an employer from the duty of collecting the tax at source from his employees and paying the amount collected to the Treasurer under the provisions of Section 4 of this ordinance.

Section 10. Fines and Penalties for Violation of Ordinance.

(a) Any person who fails, neglects or refuses to make any declaration or return required by this ordinance, any employer who fails, neglects or refuses to register or to pay the tax deducted from his employees, any person who refuses to permit the Treasurer or any agent designated by him to examine his books, records and papers, and any person who knowingly makes any incomplete, false, or fraudulent return, or attempts to do anything whatever to avoid the full disclosure of the amount of his net profits or earnings to avoid payment of the whole or any part of the tax imposed by this ordinance, shall upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of not more than five hundred dollars (\$500.00) for each offense, and costs,

and, in default of payment of said fine and costs to be imprisoned in the Allegheny County Jail or the Allegheny County Workhouse for a period not exceeding thirty (30) days.

(b) Any person who divulges any information which is confidential under the provisions of subsection (d) of Section 5 of this ordinance, shall, upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of not more than five hundred dollars (\$500.00) for each offense, and costs, and in default of payment of said fine and costs to be imprisoned in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days.

(c) The penalties imposed under this section shall be in addition to any other penalty imposed by any other section of this ordinance.

(d) The failure of any person to receive or procure the forms required for making the declaration or returns required by this ordinance shall not excuse him from making such declaration or return.

Section 11. Severability.

The provisions of this ordinance are severable. If any sentence, clause or section of this ordinance is for any reason found to be unconstitutional, illegal or invalid, such unconstitutionality, illegality or invalidity shall not affect or impair any of the remaining provisions, sentences, clauses or sections of this ordinance. It is hereby declared to be the intent of the City Council that this ordinance would have been adopted had such unconstitutional, illegal or invalid sentence, clause or section not been included herein.

AN ORDINANCE—To provide for the general revenue by levying a tax in the amount of ten dollars (\$10.00) upon the privilege of engaging in an occupation within the city in 1967, from the effective date of this ordinance, to be paid by each individual exercising such privilege; requiring the filing of returns; placing upon employers the duty of collecting and remitting tax owed by employees; providing for the administration and collection of the tax; and imposing penalties for violation.

The Council of the City of Pittsburgh, under the authority of the local tax Enabling Act, No. 511 of 1965, and any amendments thereto, hereby enacts as follows:

(3) "Employer" shall mean any person, partnership, limited partnership, unincorporated association, institution, trust, corporation, governmental agency, or any other body engaged in business or situated in the city, employing one or more employees engaged in any occupation, other than domestic servants;

(4) "Occupation" shall include any livelihood, job, trade, profession, business or enterprise of any kind, including services, domestic or other, for which any compensation is received;

Each natural person who exercises such privilege for any length of time shall pay in the amount of ten dollars (\$10.00) in accordance with the provisions of this ordinance; provided, however, that the tax hereby levied shall not be imposed upon any natural person whose total income during the taxable year is not in excess of \$1,000.00.

Section 4. Collection Through Employers:

(a) Every employer not registered under the provisions of the Earned Income Tax Ordinance of the City shall, within fifteen (15) days after the effective date of this ordinance or within fifteen (15) days after first becoming an employer, register with the Treasurer the employer's name, address and such other information as the Treasurer may require.

(b) As to each taxpayer employed for any length of time on or before March 31, 1967, each employer shall deduct the tax from compensation payable to the taxpayer, file a return on a form prescribed by the Treasurer and pay the Treasurer the full amount of all such taxes on or before April 30, 1967. Thereafter, as to each taxpayer for whom no prior deduction has been made, who is employed for any length of time in any of the three-month periods ending June 30, 1967, September 30, 1967, and December 31, 1967, each employer shall deduct the tax from compensation payable to the taxpayer, file a return on a form prescribed by the Treasurer, and pay to the Treasurer the full amount of all taxes deducted for each such three-month period on or before July 31, 1967, October 31, 1967, and January 31, 1968, respectively. (d) The failure of any employer to deduct the tax shall not relieve the employee from the duty to file a return and pay the tax. Any employer who fails to deduct the tax as required by this section, or who fails to pay such tax to the Treasurer, shall be liable for such tax in full, without deduction of the fee hereinafter provided, as though the tax had originally been levied against such employer.

(e) As to employees who present official receipts evidencing prior payment of the tax either directly or by collection through other employers, the employer shall not deduct the tax but shall maintain adequate records concerning such employees.

(f) Each employer may deduct and retain a fee equal to two per centum (2%) of the total amount of tax collected through the employer pursuant to this section.

Section 6. Nonresident Taxpayers:

Both resident and nonresident taxpayers shall, by virtue of engaging in an occupation within the City, be subject to the tax and the provisions of this ordinance.

Section 7. Administration and Enforcement:

The Treasurer, on behalf of the City, shall collect and receive the taxes, interest, fines and penalties imposed by this ordinance, and shall maintain records showing the amounts received and the dates such amounts were received. The Treasurer shall prescribe and issue all forms necessary for the administration of the tax and may adopt and enforce regulations relating to any matter pertaining to the administration of this ordinance, including, but not limited to, requirements for collection through employers, requirements for deductions, requirements for evidence and records, and provisions for the examination and correction of returns. The Treasurer and agents designated by him may examine the records of any employer or supposed employer or of any taxpayer or supposed taxpayer in order to ascertain the tax due or verify the accuracy of any return. Every employer or supposed employer and every taxpayer or supposed taxpayer shall give the Treasurer and any agent designated by him all means, facilities and opportunity for the examination hereby authorized.

Section 8. Collection:

The Treasurer shall collect, by suit or otherwise, all taxes, interest, costs, fines and penalties due under this ordinance and unpaid. If for any reason, any tax is not paid when due, interest at the rate of six per centum (6%) per year on the amount of unpaid tax and an additional penalty of one-half of one per centum ($1/2$ of 1%) of the amount of unpaid tax, for each month or fraction of month during which the tax remains unpaid, shall be added and collected. Whenever suit is brought for the recovery of unpaid tax, the taxpayer shall, in addition, be liable for the costs of collection as well as for interest and penalties. The Treasurer may accept payment under protest of the tax claimed by the City in any case where any person disputes the City's claim for the tax. If a court of competent jurisdiction thereafter decides that there has been overpayment to the Treasurer, the Treasurer shall refund the amount of the overpayment to the person who paid under protest. All refunds shall be made in conformity with the procedure

prescribed in Ordinance No. 162, approved May 9, 1962.

Section 9. Violations:

Any person who violates any provision of this ordinance or any regulation adopted pursuant to it shall, upon conviction thereof before any alderman or magistrate, be subject to a fine of not more than three hundred dollars (\$300.00) or, in default of payment of such fine, shall be subject to imprisonment in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days.

Section 10. Applicability and Severability:

The tax shall not apply to any subject or tax or person not within the taxing power of the City under the Constitution of the United States and the laws and Constitution of the Commonwealth of Pennsylvania. If a final decision of a court of competent jurisdiction holds any provision of this ordinance, or the application of any provision to any circumstances, to be illegal or unconstitutional, the other provisions of this ordinance, or the application of such provision to other circumstances, shall remain in full force and effect. The intention of Council is that the provisions of this ordinance shall be severable and that this ordinance would have been adopted if any such illegal or unconstitutional provisions had not been included.

Section 11. Effective Date:

This ordinance shall become effective January 1, 1967.

Section 12. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance.

RESOLUTIONS

No. 1

It was with deep regret that the people of the City of Pittsburgh learned of the death of Harmer D. Denny, Jr., a life-long resident of his native city, at the age of 79, on January 6, 1966, in England.

Mr. Denny was a member of one of the oldest families in Pittsburgh, and was a direct descendant of Ebenezer Denny, the first Mayor of Pittsburgh.

Mr. Denny's first service in public office was that of Director of the Department of Public Safety in the early thirties. He also served in the 29th Congress of the United States during the 1950-1952 term. His great-grandfather, Harmar Denny, also served as a Congressman from 1829 to 1837.

Mr. Denny was a veteran of World Wars I and II, and upon his retirement from army service received a permanent commission as Lieutenant-Colonel. He served by appointment of former President Dwight D. Eisenhower as a member of the Civil Aeronautics Board.

Mr. Denny was a practicing attorney and held membership in the Allegheny County Bar Association, and the Law Club. He was also active in many charitable, religious, fraternal, veterans and civic organizations.

Therefore, Be It

Resolved, That the Mayor and the members of Council of the City of Pittsburgh extend their sincere sympathy to the bereaved family of Harmar D. Denny, Jr.

The death of Mrs. Sara Mellon Scalfe has brought deep sorrow to the people of the City of Pittsburgh.

Mrs. Scalfe was a very charitable person and contributed large sums of money for public improvements. Her contribution recently was for the building of an aquarium at the Highland Park Zoo.

She was a gentle woman in every sense of the word, a humanitarian, who loved her native city, and was instrumental in providing funds for its beautification. She was also interested in the children of our city as can be attested to the fact that she provided the funds to pay for transporting the children to the day camps provided for by the City of Pittsburgh.

Her generosity was well known not only in her beloved city but throughout the Nation.

Therefore, be it

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express their sincere sympathy to the bereaved family of Mrs. Sarah Mellon Scalfe.

Whereas, The City of Pittsburgh acquired title at City Treasurer's Sale to a lot in the 19th Ward, on Vinecliff Street, known as Block 4-G, Lot 244:

Resolution approving Application to be made to Housing and Home Finance Agency for a Federal Grant to assist in financing for acquisitions and development, in accordance with plans for the allocation of land for open space purposes, of certain land known as the Manchester Playground and Ballfield.

Whereas, Title VII of the Housing Act of 1961, as amended, provides for the making of grants by the Housing and Home Finance Administrator to States and local public bodies to assist them in the acquisition and development of permanent interests in land for open-space uses where such assistance is needed for carrying out a unified or officially coordinated program for the provision and development of open-space as part of the comprehensively planned development of the urban area; and

Whereas, The City of Pittsburgh (herein sometimes referred to as "Applicant") desires to acquire and develop certain land known as Manchester Playground and Ballfield, which land is to be held and used for permanent open-space land for playground and ballfield uses; and

Whereas, Title VI of the Civil Rights Act of 1964, and the regulations of the Housing and Home Finance Agency effectuating that Title, provide that no person shall be discriminated against because of race, color, or national origin in the use of the land acquired and/or developed; and

Whereas, It is recognized that the contract for Federal grant will impose certain obligations and responsibilities upon the Applicant and will require among other things (1) assurances that families and individuals displaced as a result of the open-space land project will be relocated into decent, safe and sanitary housing, (2) compliance with Federal labor standards, and (3) compliance with Federal requirements relating to equal employment opportunity; and

Whereas, It is estimated that the cost of acquiring said interest will be \$583,000; and

Whereas, It is estimated that the cost of development of said land will be \$100,000; and

Whereas, It is estimated that the cost of necessary demolition and removal of improvements on said land will be \$30,510; and

Whereas, It is estimated that the total amount of relocation payments to be made to eligible site occupants displaced from property to be acquired will be \$10,200; and

Whereas, The Council of the City of Pittsburgh believes that it would be the best interests of the City and desires to give its approval to make an application to the Housing and Home Finance Agency for a grant as hereinafter described:

Now, Therefore, Be It Resolved by the City Council of the City of Pittsburgh as follows:

1. That an application be made to the Housing and Home Finance Agency for a grant in an amount authorized by Title VII of the Housing Act of 1961, as amended, which amount is presently estimated to be \$400,255, and that the Applicant will pay the balance of the cost from other funds available to it.

2. That adequate open-space land for the locality cannot effectively be pro-

vided through the use of existing undeveloped or predominantly undeveloped land.

3. That the Director of Planning and Development, is hereby authorized and directed to execute and to file such application with the Housing and Home Finance Agency, to provide additional information and to furnish such documents as may be required by said Agency, to execute such contracts as are required by said Agency, and to act as the authorized correspondent of the Applicant.

4. That the proposed acquisition and development is in accordance with plans for the allocation of land for open-space uses, and that, should said grant be made, the Applicant will acquire, develop, and retain said land for the uses designated in said application and approved by the Housing and Home Finance Agency.

5. That the United States of America and the Housing and Home Finance Administrator be, and they hereby are, assured of full compliance by the Applicant with regulations of the Housing and Home Finance Agency effectuating Title VI of the Civil Rights Act of 1964.

6. That there exists in the locality an adequate amount of decent, safe, and sanitary housing which is available to persons displaced as a result of the open-space land project, at prices which are within their financial means, and which are not generally less desirable in regard to public utilities and public and commercial facilities than the dwellings of the displaced individuals and families, and it is the sense of this body that such displacees, if any, will be relocated in accordance with applicable regulations of the Housing and Home Finance Agency.

He was also active in the passage of legislation which enabled the Port Authority to consolidate mass transit facilities in Allegheny County.

He was acknowledged as the senior advisor to Allegheny County's Democratic Legislation Delegation; and during his term in the Legislature, was Secretary of the Democratic caucus.

It is with deepest sorrow that the death on Friday, October 21, 1966, of Roy A. Hunt is recorded.

For many years, Mr. Hunt was one of the great corporate leaders of this nation as well as a dedicated leader of the Pittsburgh community.

During his span of corporate leader-

ship, The Aluminum Company of America became one of the nation's largest corporations with its headquarters based in Pittsburgh. Under his guidance, Alcoa's production increased 400 per cent during the years of World War Two and contributed greatly to the Allied victory.

As a community leader, he was prominent in the civic and cultural life of the Pittsburgh district. He was a pioneer member of the Allegheny Conference on Community Development which sparked the revitalization of Pittsburgh after World War Two.

He and Mrs. Hunt left their mark on the community through their considerable benefactions, including the Hunt Library at Carnegie Institute of Technology.

By his death, Pittsburgh district citizens have lost an energetic businessman and civic leader. He will long be remembered for his unselfish devotion to his family, the business world, and the community.

No. 227

The Mayor and the members of Council of the City of Pittsburgh join the thousands of friends and associates on mourning the death of David L. Lawrence on Monday, November 21, 1966, at the age of 77.

Mr. Lawrence was born and reared in that section of the City of Pittsburgh, known as The Point. His earthly story ends where it began, at The Point of his beloved native City of Pittsburgh.

At an early age he was employed in the office of Attorney William J. Brennan, who was then the Chairman of the Democratic Party in Allegheny County. Under the tutelage of Mr. Brennan, Mr. Lawrence learned the rudiments of Politics.

From that day on he took an active part in politics, and was still going strong 61 years later when he had a heart attack at the wind-up rally of his party's state campaign on November 4 at Syria Mosque.

The years in between were filled with his accomplishment in business, politics and government. His first elective office was as Mayor of Pittsburgh in 1946. He was re-elected in 1949, 1953 and 1957, and was elected Governor of Pennsylvania in 1958.

At the time of his death, Mr. Lawrence was Chairman of the President's Committee on Equal Opportunity in Housing.

Mr. Lawrence, as Chairman of the Urban Redevelopment Authority, was a dominant figure in the Renaissance of Pittsburgh. Because of his achievements in smoke and flood control and urban renewal, his establishment of a system of municipal parking garages, and his ability to maintain civic-labor-industry

cooperation, he was selected as one of the nine best mayors in the Nation and was awarded the Distinguished Service Award of the United States Conference of Mayors—which organization he served as President for two terms.

He was an able and dedicated public servant. He was a force for good, and a man of high purpose and courage.

To relieve the plight of the destitute and those in dire circumstances, he advocated and fought for the enactment of such social legislation as public assistance, unemployment compensation, social security and mother's assistance.

He was a charitable man and during his lifetime provided food and coal to the needy.

He also advocated reform in the election laws of Pennsylvania by eliminating the tax qualification and substituted permanent registration.

At the time of the organization of the United Fund in 1956 he took an active part and during its first years was Chairman of the Government Division which included the City, the County, the State and the Federal Employees. He learned that serving the needs of others was the most richly rewarded career on earth.

The people of Pittsburgh benefited by his consuming interest in politics and government and his determination was to use public power to uplift the life of the city, the State and the Nation.

He was a humanitarian, an affectionate husband, a loving father, and a generous friend.

He served in World War I and was discharged as a First Lieutenant. He was a member of various charitable and veterans' organizations.

He leaves behind him a great record, one for his many followers to carry on the work he started. Present day Pittsburgh stands as his Monument.

Therefore, the Mayor and the members of City Council express their deepest sympathy and condolences to the family of David L. Lawrence in their hour of bereavement.

No. 257

The Mayor and the members of Council of the City of Pittsburgh were sad-

dened to learn of the unexpected and untimely death of Blair F. Gunther, Member of the Board of Commissioners of Allegheny County, who died Friday, December 23, 1966, at the age of 63.

Mr. Gunther was born June 29, 1903, in Hastings, Cambria County. He was educated at Kanty Preparatory School in Erie, and graduated from Duquesne University Law School in 1927.

He had a varied public life. He served as a Deputy Attorney General in the State Justice Department from 1935 to 1938. He returned to private practice until 1942 when he was appointed Judge of Allegheny County Court, succeeding his father-in-law, Judge Frank A. Pierkarski. He was then elected to a full ten-year term. In 1950 he was named to the State Superior Court to fill a vacancy caused by the resignation of John S. Fine. In November of that year he was elected to a full ten-year term on that bench. In 1961 he was appointed Prothonotary of the Superior Court. In 1963 he was elected a member of the Board of Commissioners of Allegheny County.

As County Commissioner he advocated and voted for many county public works projects. These included the Community College, improvements at Juvenile Court, and the home for neglected or abandoned children, expanded airport facilities, and many other projects too numerous to mention.

He was good natured and created many a laugh for his colleagues and spectators at meetings of the Board of Commissioners for the things he advocated. He had a good sense of humor and quick wit.

He was an outstanding and conscientious public official and a warm and

human friends; always ready and willing to cooperate with his fellow workers and friends.

In 1960 he was named to the State Advisory Committee of the United States Commission on Civil Rights, and was named "man of the year" by several Philadelphia Fraternal Organizations.

He was President of the National Federation of American Ethnic Groups, and was a member of the Rotary Club, Elks, Moose and other civic groups. He was Past President of the Western Pennsylvania Division of the Polish-American Congress. In 1957 he was President of the National Confederation of American Ethnic Groups, and was former head of the Polish National Alliance. He was also Chairman of the Board of Alliance College.

He had been cited for meritorious service by the State, the Federation of fraternal and social organizations of Erie County, the AMVETS, Department of Pennsylvania, the American Legion, and Duquesne University Alumni.

Mr. Gunther was a loving husband and a devoted father.

He lived a full, generous, humble, Christian life of faith and love.

Therefore, the Mayor and the members of Council of the City of Pittsburgh express their sincere sympathy and condolences to the family of Blair F. Gunther; that this resolution be spread upon the record of Council, and that a copy be forwarded to the bereaved family.
